Citizen-friendly versions of Acts and Rules, compliances, licences and permits just a click away

Acts and Rules: The many Acts and Rules that are applicable to MSMEs may not be readily available at one place. Also, the contents of some of them may be difficult to understand because of their complex sentence structures and complicated legal language.

The Government launched www.myenterisewb.in to demystify and explain the statutory requirements of setting up an enterprise in the State. The portal provides citizen-friendly versions of these Acts and Rules so that they are understood even by a lay person.

Government incentives: The site provides a snapshot of fiscal and non-fiscal such incentives available to MSMEs.

Statutory Compliances: There are several Acts and Rules that require compliance from an enterprise. An entrepreneur is often not aware of the ones that apply to his/her enterprise. The site makes it very easy for an entrepreneur to identify them. A check-list of statutory compliances pops up when an entrepreneur

fills in all the necessary information about the enterprise.

Incentives: Entrepreneurs may need help to better understand the incentives that he/she is entitled to. A check-list of entitlements displayed on the site (based on the information provided by the user of this site), would help the entrepreneur plan his/her project or claim them from the government office concerned.

Location of My Government Office: An enterprise is connected to various government offices at the state and field (regional, district, sub-district) levels. An entrepreneur may not know the location of the office relevant to him/her. The site gives the location of the government offices that provide services to the MSME sector at the state, regional, district and sub-district levels and the user can locate the ones under which his/her enterprise falls.

Single Application Gateway (SAG): An entrepreneur can apply for various permissions, NoCs, licenses, permits, etc., to government offices from this website. After he/she fills out a form off-line and uploads it, the system routes it to the MSME Facilitation Centre (DIC) concerned. The MSME Facilitation Centre ensures that the application made by the entrepreneur is complete. The application is then sent to the government office concerned. The processing of the application takes place on-line or off-line as per the practice in the government office. The entrepreneur does not need to follow up the application by visiting/communicating with the office concerned. The applicant entrepreneur gets the certificate/NoC/permit from the MSME Facilitation Centre on-line or by a personal visit.

The Single Application Gateway is thus a 'virtual single point' to receive all applications made by an entrepreneur to government entities for compliances and to avail government incentives.

Online Entrepreneur's Memorandum: Entrepreneurs who intend to set up a unit in the State must file an Entrepreneur's Memorandum (EM-I) and an EM-II after the unit begins production. All Government incentives to the unit are processed only after the EM-II is registered. Earlier, entrepreneurs had to make a number of visits to District Industries Centres to do this. The filing of EM-Is and EM-IIs has now gone online, making it much easier for entrepreneurs. The online facility is available at: www.mssewb.org and at www.myenterisewb.in.
